Vishal Barai

Software Development and Graphic Design

Kolkata, India | +91 90930 52682 | vixhalbarai@gmail.com
github.com/vixhaaal | doczilla-one.vercel.app

Third-year BCA student who built and deployed Doczilla, a browser-based PDF toolkit. Combines JavaScript web development with foundational Google Cloud learning and experience as the official Head Designer and a core member of a university events club.

EDUCATION

Amity University Kolkata

Bachelor of Computer Applications

Currently in semester 5 | Third year of a four-year program

TECHNICAL SKILLS

Web development JavaScript, HTML, CSS, DOM events, browser file handling

Libraries and deployment pdf-lib, PDF.js, JSZip, Vercel, GitHub

Cloud foundations Google Cloud fundamentals, resource management, console and command line

Design Graphic design, typography, visual hierarchy, event branding

SELECTED PROJECT

Doczilla

Browser-based PDF toolkit | HTML, CSS, JavaScript | Deployed on Vercel

- Built a document utility website with PDF merging, splitting, page rotation and image-to-PDF conversion using pdf-lib.
- Integrated PDF.js for page previews and rendering, with browser-side file processing for supported document operations.
- Added drag-and-drop file selection, file-type validation, page-range controls, processing feedback and downloadable results.
- Organized tools with search, category filters, favorites and recently used tools to make common tasks easier to find.

CAMPUS LEADERSHIP

Official Head Designer and Core Member

Events Club, Amity University Kolkata

- Led visual design for club activities, turning event requirements into promotional and event materials.
- Created campus event graphics across posters, banners, ID cards and lanyards, adapting layouts for digital and print formats.

CLOUD TRAINING

Google Cloud Skills Boost | Foundational learning badges | April 2023

- Monitor and Manage Google Cloud Resources
- Store, Process, and Manage Data - Console
- Store, Process, and Manage Data - Command Line
